Subject: Re: FOIA Request EPA-HQ-2016-003882 Submitted

Dear USEPA,

Thank you for your assistance with my FOIA request in 2016 (EPA-HQ-2016-003882).

I would like to make a new request for information. I am interested in all municipal and industrial wastewater treatment facilities that have problems meeting their permit limits for ammonia, nitrite, and suspended solids due to algae growth. I am especially interested in lagoon type treatment facilities.

I previously received a list of facilities and contact information (mailing address, phone number, and email) for a contact person responsible for plant operations. My company distributes products and technologies to improve performance of wastewater facilities, especially waste treatment lagoons.

Please let me know what is needed to properly submit this FOIA request.

Thank you very much for your assistance.

Best regards,

Michael Bolan

This message is to confirm your request submission to the FOIAonline application: [View Request](#).

Request information is as follows:

- Tracking Number: EPA-HQ-2016-003882
- Requester Name: Michael Bolan
- Date Submitted: 02/17/2016
- Request Status: Submitted
- Description: I would like a list similar to my last request (HQ-FOI-2014-0024490). The list is of all municipal and industrial wastewater facilities that are not meeting NPDES limits for ammonia, nitrite, and suspended solids due to algae blooms. The list described the type of facility (treatment lagoons, aeration ponds, etc.) and contact information. Thank you for your assistance with my FOIA request in 2014. I would like to make a new request for information.
